Summary

Product Designer with 8+ years of experience designing digital products, interfaces and user-centered experiences across healthcare, mobility, retail and B2B.

Throughout my career, I have collaborated with Product, Engineering, CRM, Marketing and Business teams, transforming user needs and business goals into intuitive and scalable digital experiences. I have experience with Product Design, Design Systems, CRM experiences, prototyping and continuous improvement driven by metrics and experimentation.

Skilled in Figma, Design Systems, HTML/CSS, Looker Studio, Salesforce and AI tools such as Claude and ChatGPT, using them to accelerate research, structure user flows, document design decisions and explore solutions. I am looking for opportunities to contribute to the evolution of digital products through data-informed decisions and user-centered design.
